

BIOFEEDBACK & STRESS MANAGEMENT TECHNOLOGY

Working With the Body's Subtle Energy Potentials

The L.I.F.E. System
Living Information Forms Energy

The Living Information Forms Energy (L.I.F.E.) Biofeedback and Stress Management System is an evoked potential biofeedback device used in achieving stress management, energetic harmony and balance. It records subtle, "reactive" informational stress potentials provided by the client during the assessment procedure. The computer evaluates the responses, and then challenges the individual with that information by feeding it back to the client. This process assists the body's own natural defense mechanisms by encouraging energetic balance and harmony.

In designing the system, basic principles of energetic management, from ancient Chinese traditions, to the emerging field of Quantum Mechanics were considered. This gave rise to a perspective that a river of energy connects every organ, every thought and every emotion. The flow or blockage of energy reflects a profound system of communication that demonstrates the body/mind intelligence. The L.I.F.E. System seeks to create and integrate an environment of wellness, balance and harmony. The entire process is safe, gentle and non-invasive.

What Causes Stress?

Stress begins by producing an alarm response in the body, which if not managed by the body's own natural resources, can lead to development of an adaptation response which is symptom free. (A lack of symptoms is not a sign to perfect health. You can have deep disease and be symptom free.) If stress is not resolved, symptoms appear. Imbalances usually begin at the cell level, progress to tissue and organ level and may involve whole systems.

Stress may result from a large number of factors including:

- Thoughts of self-doubt that block perceptual awareness
- Nutritional and mineral deficiencies
- Inadequate intake of water or oxygen
- Toxic stress factors like fungus, bacteria, viruses and chemical agents
- The presence of heavy metals, and environmental toxins
- Prescription drugs or other synthetic compounds
- Geopathic stressors such as parasites or allergens
- Genetic predisposition
- Contamination from radiation, microwaves and ELF's

L.I.F.E. Biofeedback & Stress Management System Features

Program Profile List

- | | |
|---|--|
| <ul style="list-style-type: none"> • Acupuncture • Allergies • Animal/Pet Specific • Biofeedback • Bone • Brain • Cell-Corn • Color & Chakra • Condition Specific • Cosmetic • Dental • Detox & Multiple Stress • Digestive • Dimensional Transformation • Ears and Eyes | <ul style="list-style-type: none"> • Emotional Transformation • Healing and Mineral Tone • Homeopathy • Hormones • Iridology • Lymph • Mental - Emotional • Miasms and Anti-Aging • Nutritional • Reactivity Testing • Sports & Injury • Sinus • System Specific • Vitamin-Mineral-Amino Acid • Voice and Sound |
|---|--|

Biofeedback and Stress Management technology at its very finest.

- Direct, 5-point harness system.
- Reactivity matrix - 6500 items.
- Indications in over 40 categories.
- Over 30 full-featured programs.
- Dozens of assessment options.
- Thousands of feedback choices.
